ASK ANDREW #17

RentGate? What About VIP COVIDGATE, Andrew?

BROOKLYN, NY... The Cuomo COVID Orphans released the latest yet to be answered questions for reporters to ask former Governor Andrew Cuomo in this 17th installment of their weekly series, called ASK ANDREW.

Andrew Cuomo recently complained about where Zohran lives, and **Zohran's salary** of $142,000 while only paying $2,300 per month rent. He even proposed a **Zohran rent law**.

The TRUTH about CUOMO: The former Governor's salary was $250,000 when he **signed a personal book contract** for $5.2 million on July 10, 2020 (COVID had already claimed 32,000 New Yorkers' lives). He then wrote his book **using state resources** and during a pandemic that killed over **77,000** people in New York.

More TRUTH about CUOMO: During the height of the pandemic, the former Governor's administration gave out VIP COVID testing to friends, family and a few elected officials. This all happened when first responders and the health care industry lacked access to testing, and was confirmed by Cuomo's own lawyer in this **letter** where she stated: **"numerous state legislators - including members of the state Senate and Assembly, and members of this committee - received preferential COVID-19 testing for themselves, various staff members and family members."**

Here is a **comprehensive document** regarding the VIP COVID testing scheme, and a **letter** written by a senator formally complaining about Cuomo's "clear, straightforward violation of the **public officer's Code of Ethics**," which states that no officer should use his official position to secure unwarranted privileges, among other statutes.

This week's ASK ANDREW, ZOHRAN & THE OTHERS

1. Would Zohran support a "Cuomo Law" that prevents the Mayor from using city or state resources to personally profit from things like writing a book and giving out city/state VIP testing resources to cronies?
2. Would each mayoral candidate, including Andrew Cuomo, pledge NOT to write a book from which they personally profit while being Mayor?
3. Would Andrew support a law that, during a pandemic, prohibits city employees—such as DOH employees and police—from being directed by the Mayor to visit private residences for the purpose of administering COVID or other pandemic tests for his personal friends and family?
